Education

2010–Current BSc in Microengineering, EPFL, Lausanne.

2007–2010 Matura, Gymnase de Burier, La Tour-de-Peilz.

Experience

2008–Current **Embedded systems programmer**, *CVRA*, Renens.

Took part in the Eurobot robotics contest. My achievements during this contests were :

- o 2009: Control of a pneumatic system using an Arduino programmed in C.
- \circ 2010 : Electrical and software developpement of a motor control board based on an Atmel AVR.
- o 2011 : Port of the existing codebase from AVR to Altera's NIOS2 running in an FPGA.
- o 2012: Maintenance and support of existing code.
- o 2013: Project management and documentation of the existing code base.
- 2012 Warehouse work, Adecco, Vevey.

Warehouse management, including reception and sending of goods.

2011–2012 **Student assistant**, *EPFL*, Lausanne.

Student assistant for the Computer-based engineering course by R. Boulic

Hobbys

Roleplaying Member of a roleplaying game club since 2008.
